

**Polzunov Altai State
Technical University**

Barnaul is a comfortable city with a population of about 630,000 people, successfully combining history and modernity. The prices for food, accommodation, and services are quite low here compared to other regions of Siberia and especially the European part of the country.

For example, the **average cost of food** per month is about **10,000 rubles**.

The city has everything you need for a cultural vacation: theaters, museums, sports facilities, parks, and the embankment of the Ob River.

You can make purchases both in large shopping centers and in small format stores “around the corner”.

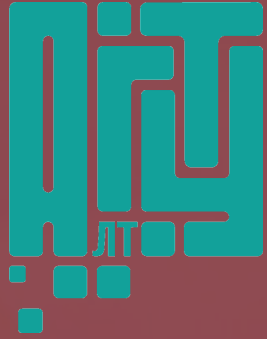

AltSTU today is:

- more than 10,000 students
- 31 bachelor degree programs
- 3 specialty degree programs
- 20 master degree programs
- 12 educational buildings
- 7 dormitories (914 rub-3646 rub/month)
- 2 branches (Biysk, Rubtsovsk)
- military training center
- skiing center
- swimming pool
- sport center
- car-racing track
- clinic

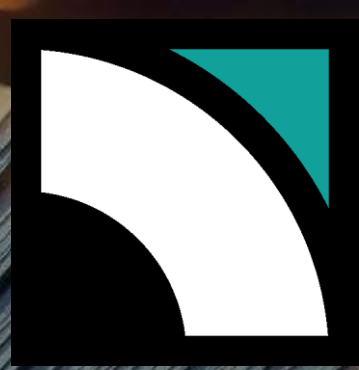

Forms of education:

- Full time
- Part time
- Extramural

Faculty of Special Technologies

Training program

Innovation

Material Science and Engineering

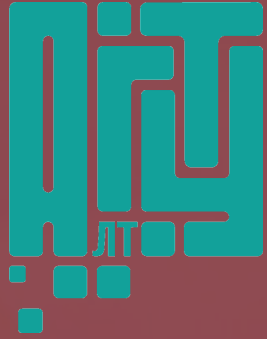

Design and Engineering Solutions in
Machinery Production

Specialization

Innovative Project Management

**Material Science and Composite Materials
Technologies**

Mechanical Engineering Technology

Faculty of Special Technologies

Training program

Technological Machines and Equipment

Specialization

Digital technologies in product shaping

Mechanical Engineering

Welding Engineering Equipment and
Technology

Applied Physics

Physical and Chemical Properties of Materials

Institute for Biotechnologies, Food and Chemical Engineering

Training program

Production Machinery and Equipment

Food Technology and Catering Arrangement

Use of Raw Plant Materials in Food
Production

Use of Raw Animal Material in Food
Production

Specialization

Innovative Technological Systems in the Food Industry

Food Technology in Catering

Organization, Management and Design of Products
Technology from Raw Plant Materials;

Biotechnology of Food Products from Raw Plant
Materials

Meat and Dairy Products Technology

Institute for Biotechnologies, Food and Chemical Engineering

Training program

Chemical Engineering

Energy and Resource-Efficient Processes in
Chemical
Technology, Petrochemistry and
Biotechnology

Light Industry Product Development

Technosphere Safety

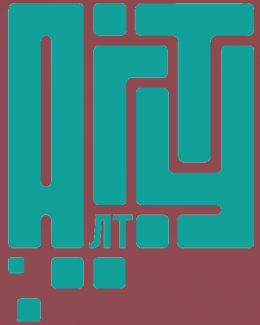

Specialization

Chemical Engineering Technology

Environmental Engineering

Sewn Products Design

Technological Safety and Emergencies Risks
Management

Information Technologies Faculty

Training program

Computer Science and Engineering

Applied Information Science

Instrumentation Technology

Cyber Security

Program Engineering

Information Technology in Business

Specialization

Software and Hardware Solutions For Automated
Systems

Applied Information Science in Economics

Information And Measurement Technology and
Intelligent Systems

Cyber Security Management Techniques

Software and Information System Development

Digital Economy

Power Machine-Building and Road Transport Faculty

Training program

Surface Transport and Technology (specialty)

Transportation and Handling Equipment and
Structures Maintenance

Transportation Process Technology

Power Engineering

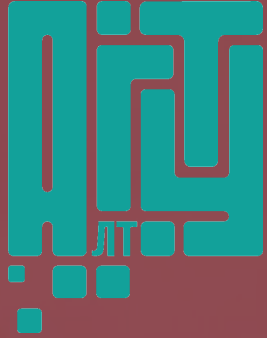

Specialization

Motor Cars and Tractors

Motor Vehicles and Vehicle Fleet

Transportation Safety

Internal Combustion Engines;
Boilers, Steam Generators and
Combustion Chambers For Atomic
Power Plants

Civil Engineering Faculty

Training program

Construction of Complex Buildings
and Structures (specialty)

Construction

Specialization

High-Rise Building Construction

Traffic Road Construction;

Industrial and Civil Engineering;

Public Utility Services Engineering and Construction;

**Production and Use of Construction Materials, Units and
Structures**

Power Engineering Faculty

Training program

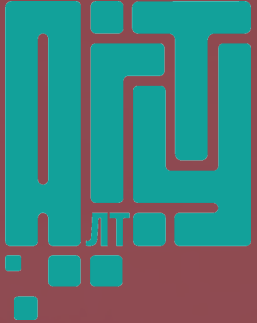

Power Industry and Electrical
Engineering

Specialization

Electrical Equipment and Maintenance For
Enterprises, Organizations and Institutions;

Electrical Drive and Automation;

Electrical Power Supply

Institute of Economics and Management

Training program

Economic Security
(specialty)

State and Municipal Management

Economy

Management

Specialization

Economic Security of Organizations by Sectors and
Areas of Activity (with special training)

State and Municipal Management at the Regional Level

World Economy;
Digital Finance;
Organization Economy and Management

Production Management;
Small Business Management

Institute of Architecture and Design

Training program

Architectural Environment
Design

Architecture

Design

Specialization

Integrated Design of Architectural Environments

Architectural Engineering

Graphic Design
Web Design

Institute of Extramural Education

- ▶ Use of Raw Plant Materials in Food Production
- ▶ Food Technology and Catering Arrangement
- ▶ Construction
- ▶ Design and Engineering Solutions in Machinery Production
- ▶ Transportation Process Technology
- ▶ Transportation and Handling Equipment and Structures Maintenance
- ▶ Power Industry and Electrical Engineering
- ▶ Computer Science and Engineering
- ▶ Technological Machines and Equipment
- ▶ Applied Information Science
- ▶ Instrumentation Technology
- ▶ Technosphere Safety
- ▶ Economy
- ▶ Management
- ▶ State and Municipal Management
- ▶ Information Technology in Business
- ▶ Design

- Construction and Maintenance of Roads and Airfields

- Technical Maintenance of Lifting, Construction, Road Machines and Equipment (by branch)

- Technology of Metalworking Production

- Technology of Polymer Composites Products Manufacturing

- Maintenance and Repair of Cars Engines, Systems and Units

- Law and Social Security Organization

- Economics and Accounting (by branch)

- Information Systems and Programming

University College of Technology

Graduates' Work Places

**Raiffeisen
BANK**

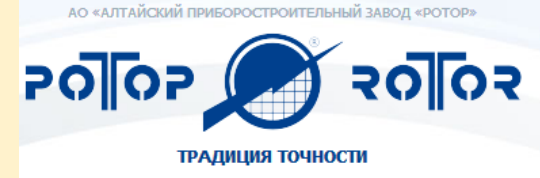

МДМ Банк

СОБИНБАНК

УРСА Банк

ВТБ24

❖ Russian and foreign production companies

❖ IT companies

❖ Public administration authorities

❖ Foreign and Russian banks

❖ Energy and construction companies, design and research organizations

AltSTU provides international students with comfortable housing opportunities

- 2 – 3 persons in room;
- kitchen and common room on each floor;
- 24-hour security.

The infrastructure of the dormitory vicinity offers grocery stores, a pharmacy, a student cafeteria and multiple cafes offering Russian, Middle Eastern and European cuisine.

On-campus housing costs:

2900 rub/month – for improved accommodation;

920 rub/month – economy accommodation

- *Athletic Club «Polytechnic»*
- *Amateur art groups*
- *Labor headquarters*
- *The Council of Students. Student Government – the supreme governance by students*
- *Students Trade Union Organization*

Pre-university Courses for International Students

1. Pre-university Russian language training (1-1.5 years) on subjects:

- *STEM*
- *biomedical science*
- *liberal arts*
- *экономический*

2. Program Russian Language and Translation Principles (1-2 years)

Tuition fee: 118,000 rubles/year

Welcome Day at AltSTU
